

# Simple 3-Step Process to

# **TRIPLE**

## The Life of Your

## Expensive Bowling Ball

The E-Z Way to get more from your equipment, while you do less:

- **Complete Resurfacing**
  - *Get out the nicks and scratches that don't allow your ball to roll "true"*
- **Oil Extraction** (Most Important Step)
  - *Get lane oil out of a bowling ball in the ONLY heating method universally endorsed by all ball manufacturers*
- **BONUS** Finger Grip Replacement—*Get a better "feel" of your ball for a more secure grip*
